

Dear Sirs,

it is our pleasure to introduce to you TEHNOGRAD-company Tuzla as one of the leading companies for construction works and preparation of investment projects in Bosnia&Herzegovina.

The company has been founded 73 years ago as a state owned company, but currently it is privatized. Throughout the entire time period, the company has been active within and outside of its country's borders, which resulted in gaining enormous international experience and significant reputation. Behind us is an imposing number of buildings. Housing and public facilities, industrial, hydrotech and energy facilities are built, the facilities from agriculture and nutrition, bridges, support walls, the landslides and properties that have damaged the land of the long-standing explorations of the city of the town of Tuzla. We also make a special performance of towers, silos and refrigerates with the system of the sliding hull.

The imperative business of our company is the quality, the customer satisfaction and the relationship based on trust. Through our business, we always took care of professional personnel, and the employment of young people, which further means that the development of our company has greatly contributed to the development of our country.

In technical and financial terms, our company is fully qualified and skilled for implementation of highly sophisticated projects anytime and anywhere.

We realize that in today's modern business environment, it is very important to connect and work with partners you can rely and we are looking forward to new projects and possible business cooperation with you.

Hukić Ekrem  
director, TEHNOGRAD-company

Poštovani,

zadovoljstvo nam je predstaviti Vam TEHNOGRAD-company Tuzla kao jednu od vodećih kompanija za građevinske radove u Bosni i Hercegovini.

Kompanija je osnovana prije 73 godine kao državno preduzeće ali je trenutno privatizirana. Tokom pomenutog vremenskog perioda rada kompanija je bila potpuno aktivna i van granica matične države, što je doprinijelo sticanju velikog internacionalnog iskustava u gradnji, te donijelo značajnu reputaciju. Iza nas je impozantan broj izgrađenih objekata. Građeni su stambeni i javni objekti, industrijski, hidrotehnički i energetski objekti, objekti iz oblasti poljoprivrede i prehrane, kao i mostovi, potporni zidovi, sanacije klizišta i objekata oštećenih slijeganjem uslijed dugogodišnje eksploatacije solnih ležišta u gradu Tuzla. Također, vršimo i specijalnu izvedbu tornjeva, silosa i hladnjaka sa sistemom kliznih oplata.

Imperativ poslovanja naše kompanije je kvalitet, zadovoljstvo kupaca i odnos zasnovan na povjerenju. Kroz naše poslovanje smo uvijek vodili računa o stručnim kadrovima, te o zapošljavanju mladih, što dalje znači da je razvoj naše kompanije uveliko doprinisao razvoju naše države.

U tehničkom i finansijskom smislu, naša kompanija je potpuno kvalifikovana i sposobna realizovati najsofisticiranije projekte bilo kad i bilo gdje.

Svjесni smo da je u današnjem poslovnom okruženju izuzetno važno saradivati sa partnerima na koje se možete osloniti te u koje imate povjerenje, s toga se iskreno nadamo budućoj poslovnoj saradnji.

Hukić Ekrem  
generalni direktor, TEHNOGRAD-company

## ABOUT US

The vision of TEHNOGRAD-company Tuzla is to become an eminent construction company of regional and international importance, with clear development goals, business methods, maintaining the level of service quality, applying the latest technologies and achievements in the field of construction through constant involvement of its members in solving current issues in the region, and states. We strive to provide dynamic leadership in the construction industry, in order to modernize the work, work process and timely adaptation to all the requirements of the modern market in the field of construction.

We are ready and safe to meet the requirements of the market by granting the satisfaction of customers and business partners with our construction products and services.
